# UNITED STATES DISTRICT COURT
# SOUTHERN DISTRICT OF WEST VIRGINIA

**PLEASE TAKE NOTICE** that pursuant to Title 28, United States Code, Section 1861, all litigants "have the right to grand and petit jurors selected at random from a fair cross section of the community." This court uses a two step process to select jurors. First, a master jury wheel is created by selecting names at random from the actual voter registration lists. Then, names are randomly drawn periodically from the master jury wheel to receive juror qualification questionnaires. Individuals' answers to these questionnaires determine whether they are legally qualified to serve. If so, the names of those persons are put in a second wheel, a qualified jury wheel. As prospective jurors are needed for a specific trial or grand jury, juror summonses are sent to persons randomly selected from the qualified wheel. All of these selections are carried out through a properly programmed electronic data processing system for pure randomized selection. The pure randomized process ensures that the mathematical odds of any single name being picked are substantially equal.
