

Brenda Bostic  
Photographer/Visual artist

*Artist Statement/Bio*

*West Virginia born and raised, photography has been a passion of mine for years and I hope to tell a story and bring every image to life.*

*Photography is more than just a print on paper, it is the image created in the mind's eye of the photographer. capturing one moment that that will never be exactly the same at any time. Every moment is magical, and there is only a certain window of light to capture the amazing world we live in. Photography allows me to express what I see, and that which I may not be able to draw or even put into words. My hope is that someone will be able to feel what I feel not just see a picture that I have taken. A memory is captured in the eye, a photograph brings it to light.*

*My vision, when the shutter is tripped, is to create for those who see it, whether of people, flowers or scenery, a place of an unforgettable, lasting image in their minds. Some days are magical when the light and the surroundings seem to get dressed up and invite you in to come capture that moment. I am fortunate to live in this beautiful state and I hope to capture it's beauty for years to come.*

*My work has been juried in the East River Arts in Bluefield, WV and the Beckley Art Gallery, Beckley, WV.*
