

**UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF WEST VIRGINIA**

PLEASE TAKE NOTICE that pursuant to Title 28, United States Code, Section 1861, all litigants “have the right to grand and petit jurors selected at random from a fair cross section of the community.” This court uses a two-step process to select jurors. First, a master jury wheel is created by selecting names at random from lists of registered voters of the counties within each division of the District obtained from the West Virginia Secretary of State. Names are randomly drawn from the master jury wheel to receive juror qualification questionnaires. An individual’s answers to these questionnaires determines whether that individual is legally qualified to serve as a juror. If qualified, the names of those individuals are put in a second wheel, known as the qualified jury wheel. As prospective jurors are needed for a specific trial or grand jury, juror summonses are sent to persons randomly selected from the qualified wheel. All of the selections are carried out through a properly programmed electronic data processing system for pure randomized selection. The randomized process ensures that the mathematical odds of any single name being picked are substantially equal.
